

The future of Customer Service

The State of Customer Service: Serving Customers Digitally

We are moving towards a fully connected world enabled by technology. Today's customers demand immediacy, connectivity and simplicity in every interaction on their buying journey.

Companies that are able to provide relevant and agile customer experiences will be the ones that differentiate themselves from their competitors.

Where we were in 2021

For the first time, over **50%** of global customer experiences were digital.

July 2021 Statista. Click to download source.
